

This 90-degree LED Channel is the perfect solution for projects requiring lighting in corner spaces, combining efficient installation with superior light

Specification Sheet

ST- Led Channel 3

This Spidertech 90-degree aluminum LED Channel # 3 is specially designed for installation in horizontal and vertical corners, offering both functionality and a refined look. Key features include:

- Material: High-quality aluminum for excellent heat dissipation and long-term durability.
- 90-degree design: Perfect for corner installations, ensuring a precise fit in both horizontal and vertical applications.
- Integrated Hook & Loop system: Comes with a Hook & Loop system for quick and hassle-free installation, without the need for extra tools.
- Easy maintenance: The channel can be easily removed and reinstalled, ideal for areas with limited access.
- Compatibility: Suitable for all standard LED strips.
- Optimal light diffusion: The angled design ensures light is evenly distributed along both planes of the corner, creating a smooth, continuous lighting effect.
- Sleek and modern: Provides a clean, professional finish by concealing LED strips while enhancing the corner space with effective illumination.
