SPIDERTECH

This triangular LED Channel is ideal for projects requiring targeted downward lighting with a high-quality finish.

Specification Sheet

ST- Led Channel 8

This Spidertech triangular aluminum LED Channel #8 combines style and functionality, featuring a powder coating finish in white or bronze and designed to provide downward illumination. Key features include:

- Material: High-quality aluminum with excellent heat dissipation and long-lasting durability.

- Triangular design: Ideal for installations that require a sleek, angular profile, providing focused downward lighting.

- Powder coating finish : Available in elegant white or bronze finishes for a sophisticated and durable aesthetic.

- Integrated Hook & Loop system: Features a Hook & Loop system for fast and easy installation without tools.

- Easy maintenance: Can be removed and reinstalled effortlessly, making it perfect for spaces with minimal access.

- Compatibility: Compatible with all standard LED strips.

- Downward illumination: The angled design directs light downward, making it perfect for task lighting or accentuating specific areas.
