

SPIDERTECH

This LED Channel is ideal for installations that require balanced, dual-direction lighting with a stylish and professional finish.

Specification Sheet

ST- Led Channel 9

The SpiderTech aluminum LED Channel # 9 offers dual lighting—both upward and downward—with a cove-shaped profile for enhanced upper light distribution. It also features a powder-coated finish available in white or bronze. Key features include:

- Material: High-quality aluminum for optimal heat dissipation and long-lasting durability.
- Dual lighting design: Provides both upward and downward illumination, ideal for creating ambient and task lighting in one fixture.
- Cove-shaped profile: The upper part of the channel features a cove design that softens and spreads the upward light, creating a refined ambient glow.
- Powder coating finish: Available in elegant white or bronze finishes, providing both style and durability.
- Integrated Hook & Loop system: Equipped with a Hook & Loop system for easy, tool-free installation.
- Easy maintenance: The channel can be removed and reinstalled with ease, perfect for spaces with limited access.
- Compatibility: Works with all standard LED strips.
- Balanced light distribution: The combination of upward and downward lighting enhances overall illumination, making it ideal for highlighting both ceilings and walls
- Elegant appearance: The sleek design and powder-coated finish add a sophisticated touch to any lighting project.
